Larry,

We received the attached EPA test order during our July 4th shutdown week. As supported by the attached documents from last year's 2012 MY HD Cert Preview meeting, GM believes we had an agreement with EPA to not require in-use testing of our 6.6L Duramax diesel in 2008 and 2009 carryover model years. I have included both the presentation materials (see e-mail exchange with Khesha Jennings on page 50) and the meeting summary letter sent as a follow-up.

We fully expect to receive an EPA test order for the 2011 MY SCR equipped 6.6L Duramax engine. FYI - we have our 2013 MY HD Cert Preview meeting scheduled at your office in DC this Monday afternoon July 11 from 1-3 pm. We can discuss further as part of that meeting. Thanks.

Randy Harvey
